Continuation of 2. NOTE: the new functional limitations proposed requires an additional search of the art and new consideration for anticipation, and consideration under 35 USC 112, first paragraph regarding adequate guidance and description of the claimed product.

Continuation of 5. does NOT place the application in condition for allowance because: Applicants' arguments are directed to limitations set forth in the after final amendment that have not been entered. Applicants arguments are not found persuasive because they do not apply to the pending claims. The intent to cancel claims in '622 to obviate the rejection made under 35 USC 101 is noted, however as noted by Applicants the amendment was not entered and the claims are still pending '622. Therefore the rejection is maintained.
